PROFILE

Detail-oriented, analytical, and self-driven programmer with extensive experience building user-facing applications. Efficient and knowledgeable coder with skills in HTML, CSS and JavaScript programming languages. Coordinated and collaborative team player with attention to detail, graphic design skills, and ability to contribute to code base improvement initiatives and UX improvement projects.

TRAINING & PROJECTS

Entry Level Front End Developer

Grow Tech

2023 - Present

- Using markup languages like HTML to create user-friendly web pages.
- Maintaining and improving website.
- Optimizing applications for maximum speed.
- Design mobile-based features.
- Create a Responsive web design.
- Gathering and evaluating user requirements, in collaboration with product managers and engineers.
- Adhere to style standards on fonts, colors and images.
- Conceptualizing original website design ideas that bring simplicity and user friendliness to complex roadblocks.

Online Book Store

<https://shakulb1017.github.io/Bookly/>

- An online book store is a web application that allows customers to buy books online. Customers can search for a book by title or author using a web browser, add it to their shopping cart, and then purchase it .
- I have used HTML and CSS in this project. This is my first self made UI web design project.
